A Space for Play & Experimentation:

Actor training and professional development for community practitioners.

September 2024 - February 2025.

Application Pack.

Introduction.

Thank you for taking an interest in Actor's LAB, a free of charge professional development programme presented by 20 Stories High, in partnership with TiPP and Unity Theatre.

This year, the Actors LAB programme is focused on developing the skills and experience of artists who are interested in working in community arts settings, as actors, and creative facilitators.

Led by 20 Stories High's Artistic Director Keith Saha, 4 artists will get a chance to develop themselves as actors and take part in creative skills, and professional development training facilitated by world-class professionals.

The training will be followed by a paid rehearsal process, and tour of a new piece of work called Wobble Bass Frequencies, which explores narratives around families reconnecting. The piece will tour into prisons; secure units; and other community led spaces in Merseyside in February 2025.

Here is everything we think you need to know about the programme and how to apply, but if you have any questions, please do get in touch with 20 Stories High's Creative Producer Roxy Daykin-Moores. Her email address is: roxy@20storieshigh.org.uk.

About 20 Stories High.

20 Stories High is an award-winning theatre company that believes "everybody's got a story to tell... and their own way of telling it."

We co-create with culturally diverse, working-class young people, emerging artists, and world-class professionals to tell stories that are challenging, authentic and uplifting.

Experimenting with rap, dance, beatboxing, music, and puppetry, we mash up art forms to make new kinds of theatre that empowers and enables social change.

Our shows happen in loads of different spaces from theatres, schools and youth clubs to digital spaces and living rooms.

Our heart is in Liverpool, but our reach is universal.

We are in partnership with Unity Theatre and TiPP for this project.

Who is the opportunity for?

We are looking for actors who are passionate about taking high quality artistic experiences directly to underrepresented, culturally diverse, working-class young people and communities.

We are particularly keen to receive applications from people who are confident musicians and/ or singers, as sound will play a role in the storytelling of the piece.

We are looking for actors who can commit to the whole process- including weekly workshops, as well as the full rehearsal process and performance weeks.

We know the theatre landscape isn't equal. At 20 Stories High we continue to strive to redress the balance. Actors LAB offers formalised training to early career actors, (meaning those who have little to no professional acting experience, or some professional acting experience but no formal training in theatre) who are:

1. Aged 18+
2. Based in Merseyside

Additionally, preference will be given to artists who have faced barriers when accessing training, for example:

1. People from the Global Majority
2. People with barriers accessing education or training
3. LGBTQIA+ people
4. People who have faced financial challenges
5. Deaf and Disabled people
6. Migrant artists
7. People who have experienced mental and/ or physical health challenges
8. People with extra responsibilities at home (e.g. primary caregiver for a relative or responsible for the care of children)

Structure of the programme.

We will offer the opportunity for 4 actors to participate in a two-stage professional development programme.
